

Plan for ICALEPCS2003

Presented at the JACoW Team Meeting
Berkeley, USA

November 6, 2002

J. Choi and In Soo Ko
POSTECH

ICALEPCS2003 Conference

- When: October 13 – 17, 2003
- Where: Hotel Hilton, Gyeongju
Korea
- Hosts:
 - Pohang Accelerator Laboratory
 - Pohang University of Science & Technology
(POSTECH)

Where is Gyeongju?

- Gyeongju is located in the south-eastern area of the Korean peninsula. It is placed 360 km from Seoul, the Capital city of Korea, and 30 km away from Pohang. On a fertile plain surrounded by mountains, Gyeongju was the capital of the Silla Dynasty (57 BC - 935 AD). It has a great concentration of historic buildings, temples, grottos, royal tombs, and artifacts. Thus, this area is called a “Museum without Walls.” The UNESCO declared this area as a “Human Heritage.”
- Gyongju Hilton Hotel is located in the Bomun Lake Resort which is about 6 km away from downtown Gyeongju. The 2,750 acre resort area has a tourist center, four luxurious hotels, three golf courses, shopping arcades, a family amusement park, and folk villages.

Where is Pohang?

- Pohang is located in the south-eastern tip of the Korean peninsula. It is famous for the home city of POSCO which is the second largest steel producer in the world. It takes one hour from Gimpo Airport by airplane.

POSTECH

- Pohang University of Science and Technology (POSTECH) is a private university sponsored by POSTECH Foundation. The university opened at the end of 1986 as Korea's first research-oriented institution of higher learning in science and technology. At present, 1,200 undergraduate and 1,500 graduate students, and 220 faculty members are carrying out their researches in four departments of science, six departments of engineering, and many other research laboratories including Pohang Accelerator Laboratory.
- For more information, please visit <http://www.postech.ac.kr/>

Pohang Accelerator Laboratory

- Pohang Accelerator Laboratory (PAL) has completed the Pohang Light Source (PLS) project on December 7, 1994. The PLS consists of a 2-GeV low-emittance storage ring and a 2-GeV electron linear accelerator. The PLS is the first major accelerator facility in Korea, and is being served as a national research facility. During the construction, Pohang Iron & Steel Company (POSCO) contributed 60% of total budget, or about U\$180 million, and the government funded the balance. From FY1995, the operation budget is provided mainly by the government.

Timeline (tentative)

First meeting of International Scientific Advisory Committee (ISAC) at CERN	May 29 – 30, 2002
at SLAC	June 20 – 21, 2002
Web site open and zero-version announcement	October 30, 2002
Program Committee (PC) organized	October 30, 2002
First PC meeting (at CERN)	January 23 – 24, 2003
First announcement package completed (including abstract instruction to authors)	January 31, 2003
WWW pre-registration and abstract submission	February 1, 2003
Letters to authors (invited papers)	February 1, 2003
Deadline on the request of financial support	March 15, 2003
<u>Abstract Deadline</u>	April 15, 2003
Second ISAC & PC meeting in Europe	April 28 – 29, 2003
in NA: before PAC (at Portland, Oregon, May 12 – 16, 2003)	May 9 – 10, 2003

Abstracts on WWW (with session ID)	May 31, 2003
Letters to authors informing session ID and paper submission	May 31, 2003
Registration with lower payment available	June 1, 2003
Electronic paper submission available	June 1, 2003
<u>Registration Deadline</u> (for lower rate)	July 31, 2003
<u>Hotel Registration Deadline</u>	July 31, 2003
<u>Deadline for Companion Program</u>	July 31, 2003
Complete registration package	October 1, 2003
Conference setup at Hotel	October 12, 2003
Conference registration starts	October 12, 2003
Conference reception	October 12, 2003
Conference starts	October 13, 2003
Conference banquet	October 16, 2003
Conference ends	October 17, 2003
Conference paper online	December 15, 2003
CD Proceedings mailed out	April 15, 2004

Web pages

- Web page:
