

**New Operational Aspects at ELETTRA,**  
C.J. BOCCHETTA, F. IAZZOURENE,  
E. KARANTZOULIS, C. SCAFURI, L. TOSI,  
R.P. WALKER, Sincrotrone Trieste - In order to maintain  
ELETTRA as one of the most brilliant sources of VUV and  
soft X-rays radiation continued efforts are being made to  
further optimise the performance of the storage ring,  
including operation with a higher current, increasing the  
level of automation and introducing new bunch filling  
modes. A description of the activities pursued to this end is  
given.
