Acrobat Setup (the first time, you start Acrobat...) Distiller

If there's no distiller shortcut on your desktop, make one! (From c:\Program Files\Adobe\Acrobat 4.0\Distillr\AcroDist.exe)

Start the Distiller, you should get this:

Job Options:	EPAC2000	<u> </u>
- Info File: nor	Acrobat 3.0	<u>P</u> ause
Size: Source:		<u>C</u> ancel Job
Progress Status:	Ready	
Acrobat Distiller 4	0	

Check that Job Options is 'EPAC2000'

Then, select File>Preferences then setup the parameters like this:

Startup Alerts	ОК
Notify when startup volume is nearly full	Cancel
Dutput Options	
🗖 Ask for PDF file destination	
Ask to replace existing PDF file	
View PDF when using Distiller Printer	
View Dr when using Distiller Linker	

Acrobat (Previously called Acrobat Exchange...)

If there's no Acrobat shortcut (or a wrong one) on your desktop, make one! (From c:\Program Files\Adobe\Acrobat 4.0\ Acrobat\ Acrobat.exe).

Then start Acrobat.
